Digital Citizenship Plan | 2026-2027

Glenbrook School

Calgary Board of Education

Digital citizenship is about using technology and participating in digital environments. It is key to helping our students learn to use available technology responsibly in the classroom and beyond. This Digital Citizenship Plan addresses how we work to build a community where we live and work together as digital citizens.

Relevant contextual information about our school and School Development Plan:

- Glenbrook School is a K-6 Elementary School with 266 students.
- Many of our students have access to cell phones, tablets or computers at home.
- Students access a variety of technology in the school including iPads and Chromebooks.

Relevant evidence and data that informs our Digital Citizenship Plan:

- CBE Student Survey Question: “I take care of myself by making sure that I don’t have too much screen time”. Overall agreement = 49.18% (Spring 2026)
- Alberta Education Assurance (AEA) Survey Question: “Students follow the rules”. Overall agreement = 60.78% (Spring 2026)

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
Long term goal #1 Students will understand the importance of taking care of technology in our school and using it appropriately.	RESPONSIBILITY I can demonstrate safe and responsible choices when physically using and handling technology.	Short term goal #1 Students will demonstrate safe device handling by carrying one device with two hands, bringing it directly to their learning space, and remaining stationary during use.	Students will use technology safely and responsibly to support learning. Less damage or breakage of school technology. Fewer heat tickets for technology devices	Teachers will facilitate conversations about responsible technology use and use student voice to develop shared classroom norms and expectations. Class conversations and group meeting check ins about appropriate technology use. Student Code of Conduct	All students will use technology safely. AEA Survey questions related to following school rules. Checklist will continue to be used by teachers and students.
		Short term goal #2 Students and teachers will ensure that technology carts

		are properly used and maintained.		Digital Citizenship Insite Resources	
Long term goal #2 Students will use digital tools and online platforms to work collaboratively, respectfully, and inclusively with others.	RESPECT While online I am respectful and inclusive in my words and actions. While online I am empathetic toward others.	Short term goal #1 Students will develop and uphold shared school and classroom norms that support safe, respectful, and effective technology use. Short term goal #2 Students will develop an understanding of equity, diversity, inclusion, and cyberbullying to promote respectful, inclusive, and responsible interactions in online environments.	Students will follow school and classroom norms outlining proper technology use and etiquette.	Teachers will facilitate conversations about responsible technology use and use student voice to develop shared classroom norms and expectations. Review the Diversity and Inclusion Insite page. CBE Student Code of Conduct Digital Citizenship Insite Resources	CBE Student Survey questions related to digital citizenship. Through classroom conversations and group meetings, students will discuss and reflect on how their technology use supports respectful, inclusive, and effective collaboration with others.

Next Steps and Focuses for the Coming School Year
